

ATL Activity: Research and Communication

Task: *Field Report of the steppes*

Brief

You are a young Geographer who has been hired by a local government initiative for students learning about the Mongolians steppes. You are part of a team of archaeologists and sociologists to survey the physical landscape of Mongolia as well as the behaviour and lifestyle of its inhabitants. You will be required to complete a short **field report** of the key features of the region you have researched from its physical description to its climate zones as well as the pattern of daily life lived by the inhabitants. What will you include in your report and why?

(max words 150).

Field Report

Name	:	
Date	:	
Purpose	:	

Report: *your findings*
